

2211FC02: The Finance Committee moves to charge an hourly fee of \$75.00 to cover the additional work required when a club does not renew their membership prior to the club expiration date of December 31.

Reasoning: If a Club has not renewed their Club Membership by December 31, they will be considered a "Club Not In Good Standing". They will not have access to their club portal and all athlete and non-athlete members (Coaches, Officials, Administrators etc. members will need to become unattached. Athletes' times will only be recognized as an unattached member of Pacific Swimming for their times to be recognized at meet. Making matters worse when the club is finally registered all athletes and non-athlete members will need to be re-attached to the club. The workload for Laurie will at least double and will be very difficult for her to accomplish in Swims 3.0.
